Dear Ms. Ekblad,

The application that seeks 214 Authority on behalf of Everest Midwest LLC, identified with the FCC File Number ITC-214-20060106-00007, incorrectly reflects Everest Midwest Licensee LLC as the applicant on the electronic portion of the application. This is a result of an error made in the Commission's Registration System ("CORES"). The attachments to the application reflect the correct applicant name.

Accordingly, an application to update the CORES FCC Registration Number of 0004069035 was electronically submitted to the Federal Communications Commission on January 18, 2006. We greatly appreciate the Commission's assistance in updating the electronic portion of the application.

Should there be any questions concerning this administrative update, please let us know.
